The data concerning properties and applications of the indicated products are offered in good faith and are based on our research and practical experiences. Due to the versatility of the application possibilities, it is impossible to mention all details and we do not assume any obligations or responsibilities resulting from this. When a new edition appears due to the technical development, the preceding data are no longer valid.

## ADVANTAGES

The Wynn's FuelSystemSERVE® is an extremely user-friendly machine which easily connects to the diesel fuel system in place of the normal fuel supply using one of the included adapters. Wynn's Diesel System Purge is a highly concentrated and highly effective cleaning chemical specifically formulated to clean diesel fuel systems, especially the hard to remove injector and combustion chamber deposits. This product is delivered into the vehicle's fuel system, providing a Diesel Fuel System Service that will remove deposits from the diesel injectors, combustion chamber and other areas of the diesel fuel system.

Wynn's FuelSystemSERVE® and Wynn's Diesel System Purge are the perfect solution for workshops looking for ultimate in a profitable, effective and user-friendly Diesel Fuel System Service. Wynn's Diesel System Purge is formulated as the solution for removal of diesel fuel system deposits to restore performance, maximise fuel economy and minimise emissions.

## DIRECTIONS FOR USE

The chemical is put into the Wynn's FuelSystemSERVE® tank. This product does not have to be diluted and may be circulated back to the fuel tank. It will not harm any fuel system components, including fuel system sensors, filters, catalytic converters, particulate traps and plastic materials such as those sometimes found on injection pumps.

To ensure best cleaning results are achieved, its important to install the supply and return hoses after the fuel filter which prevents the dilution of the chemical.

After completing this cleaning service, add Wynn's Diesel Inject-A-Clean (Product No. 53501) in the diesel tank for continued fuel system maintenance and improved performance.

## BENEFITS

Wynn's Diesel System Purge is formulated to provide the following benefits:

- 01 Cleans diesel injectors and combustion chambers.
- 02 Restores proper injector spray pattern.
- 03 Increases fuel economy.
- 04 Restores overall engine performance.
- 05 Reduces particulate emissions.

## APPLICATIONS

Wynn's Diesel System Purge is formulated for use with Wynn's FuelSystemSERVE+® (Product No. 68432) or Wynn's FuelSystemSERVE® (Product No. 68436), as directed in the equipment manual.
