

WYNN'S AUTOMATIC TRANSMISSION TREATMENT

ABOUT THE PRODUCT

Wynn's Automatic Transmission Treatment is a fully synthetic formula designed to meet advanced transmissions requirements. When added to a common multi-vehicle ATF fluid, Wynn's Automatic Transmission Treatment can increase the fluid performance to match most of the OEM's highly friction modified specialty fluids.

The data concerning properties and applications of the indicated products are offered in good faith and are based on our research and practical experiences. Due to the versatility of the application possibilities, it is impossible to mention all details and we do not assume any obligations or responsibilities resulting from this. When a new edition appears due to the technical development, the preceding data are no longer valid.

ADVANTAGES

Wynn's Automatic Transmission Treatment stops gear shudder almost instantly, and is compatible with both mineral and synthetic ATF's. It stops and prevents seal leaks in automatic transmissions, and conditions automatic transmission fluids to prevent and correct deposit-caused automatic transmission problems.

BENEFITS

Wynn's Automatic Transmission Treatment provides the following benefits:

- 01 Corrects seal leaks caused by shrunken seals
- 02 Maintains new seal pliability over a longer interval
- 03 Supplements seal swell properties of drainable used fluid during a fluid change
- 04 Maintains automatic transmission cleanliness
- 05 Retards automatic transmission fluid oxidation and formation of deposits
- 06 Provides additional protection to automatic transmissions operating under high temperature conditions, such as trailer towing
- 07 Increases the life of automatic transmission fluids
- 08 Prevents automatic transmission wear between opposing metal surfaces without adversely affecting transmission shift points

DIRECTIONS OF USE

For automatic transmissions, add contents of Wynn's Automatic Transmission Treatment to automatic transmission. Do not overfill. Recommended for use at 5% by volume.

APPLICATIONS

Wynn's Automatic Transmission Treatment is compatible with all automatic transmission fluids.

Wynn's Automatic Transmission Treatment is not designed for Constant Velocity Transmission (CVT) which requires different frictional characteristics.
