The data concerning properties and applications of the indicated products are offered in good faith and are based on our research and practical experiences. Due to the versatility of the application possibilities, it is impossible to mention all details and we do not assume any obligations or responsibilities resulting from this. When a new edition appears due to the technical development, the preceding data are no longer valid.

## WYNN'S LS DIFFERENTIAL FRICTION MODIFIER

### ADVANTAGES

The addition of Wynn's LS Differential Friction Modifier to a standard size axle enhances the protection of gear parts and reduces or eliminates chattering.

### BENEFITS

Wynn's LS Differential Friction Modifier has been developed to provide the following benefits:

- 01 Enhances limited slip performance of rear axles
- 02 Eliminates chatter in limited slip differentials
- 03 Enhances the protection of gear components
- 04 Eliminates the need to stock multiple gear oils

### DIRECTIONS OF USE

Apply entire contents of Wynn's LS Differential Friction Modifier 125mL tube to the rear axle limited slip differential. For larger differentials, use Wynn's LS Differential Friction Modifier at 7% volume.

### APPLICATIONS

Wynn's LS Differential Friction Modifier is recommended for use in four wheel drives, light commercial vehicles, and any vehicles equipped with limited slip differentials.
