

WYNN'S AUTOFEED EP 0 GREASE

PROFESSIONAL RANGE

ABOUT THE PRODUCT

Wynn's Autofeed EP 0 Grease, containing the unique Wynn's Friction Proofing® package, is a premium lithium-soap thickened grease of NLGI Grade No. 0 consistency. It is formulated to outperform ordinary No. 0 grade greases in all applications particularly the heavily loaded, extreme pressure and high wear conditions.

The data concerning properties and applications of the indicated products are offered in good faith and are based on our research and practical experiences. Due to the versatility of the application possibilities, it is impossible to mention all details and we do not assume any obligations or responsibilities resulting from this. When a new edition appears due to the technical development, the preceding data are no longer valid.

**WYNN'S AUTOFEED EP 0 GREASE****ADVANTAGES**

Wynn's Autofeed EP 0 Grease, containing Wynn's Friction Proofing[®], provides thermal stability, and resistance to moisture and corrosion. It reduces operating temperatures, increases bearing life and extends re-greasing intervals.

BENEFITS

Wynn's Autofeed EP 0 Grease is formulated to provide the following benefits:

- 01 Separates opposing metal surfaces, reducing wear
- 02 Has a dropping point in excess of 180°C
- 03 Meets the requirements of NLGI grade No. 0
- 04 Prevents rust and corrosion of metallic components under humid and wet conditions
- 05 Extends grease life by reducing oxidation
- 06 Reduces the formation of high temperature deposits
- 07 Provides protection over a wide range of operating temperatures
- 08 Reduces operating temperatures under high load conditions

DIRECTIONS OF USE

Apply Wynn's Autofeed EP 0 Grease using commercially available grease applicators depending on the specific application.

It is good industry practice not to mix different brands of greases, and to clean or purge previous greased lubrication systems.

APPLICATIONS

Wynn's Autofeed EP 0 Grease is particularly suited to industry and fleet applications including agriculture and mining industries.

Wynn's Autofeed EP 0 Grease meets the lubrication requirements of a wide variety of applications that call for a No. 0 grease including bearings (both industrial and automotive), grease lubricated journals, fine mesh gears, flexible gear couplings, automatic greasers, ball and universal joints and autofeed applicators.

Wynn's Autofeed EP 0 Grease is compatible with most lithium based greases but for best results, removal of the old grease is recommended.
