The data concerning properties and applications of the indicated products are offered in good faith and are based on our research and practical experiences. Due to the versatility of the application possibilities, it is impossible to mention all details and we do not assume any obligations or responsibilities resulting from this. When a new edition appears due to the technical development, the preceding data are no longer valid.

## ADVANTAGES

Wynn's Heavy Duty Concentrate for Engines is a product capable of reducing maintenance costs by improving engine cleanliness, reducing wear and providing extremely high levels of protection. This level of protection exceeds API-CH4 performance.

## BENEFITS

Wynn's Heavy Duty Concentrate for Engines is formulated to provide the following benefits:

- 01 Maintains engine cleanliness
- 02 Disperses crankcase contaminants
- 03 Prevents bearing corrosion
- 04 Retards oil oxidation
- 05 Prevents sulphur corrosion
- 06 Reduces friction and wear on metal surfaces
- 07 Longer oil life
- 08 Reduced smoke emissions
- 09 Quieter engine operation

## DIRECTIONS OF USE

When dosed at 5% volume dosage level, Wynn's Heavy Duty Concentrate for Engines will exceed API CH-4/CG-4/CF-4/SJ Standard.

## APPLICATIONS

Wynn's Heavy Duty Concentrate for Engines is suitable for all types of petrol and diesel engines in road transport, agriculture, earth moving, mining, marine and manufacturing industries.
