

WYNN'S HYDRAULIC SYSTEMS CONCENTRATE

PROFESSIONAL RANGE

ABOUT THE PRODUCT

Wynn's Hydraulic Systems Concentrate containing the unique Wynn's Friction Proofing® Package, is a hydraulic oil supplement formulated to prevent and control fluid leakage and improve pump life, while it revitalises seals and O-rings.

The data concerning properties and applications of the indicated products are offered in good faith and are based on our research and practical experiences. Due to the versatility of the application possibilities, it is impossible to mention all details and we do not assume any obligations or responsibilities resulting from this. When a new edition appears due to the technical development, the preceding data are no longer valid.

ADVANTAGES

Wynn's Hydraulic Systems Concentrate was developed to meet the specific requirements of industrial hydraulic systems using petroleum based hydraulic fluids.

BENEFITS

Wynn's Hydraulic Systems Concentrate is formulated to provide the following benefits:

- 01 Reduce friction, wear and heat in pumps and equipment
- 02 Preserve hydraulic system cleanliness and reduce corrosion
- 03 Minimise cavitation and air entrapment
- 04 Prevent and control hydraulic oil system leaks
- 05 Improve seal and O-ring life that cause system leaks
- 06 Provide a unique blend of anti-wear/anti-foam additives
- 07 Suitable for all hydraulic systems using petroleum based fluids

DIRECTIONS OF USE

Add 2% to 5% Wynn's Hydraulic Systems Concentrate to conventional or compounded petroleum base hydraulic fluid. This will be dependent upon the severity of leakage or operating conditions (high temperature operation will require the introduction of higher concentrations). When uncompounded hydraulic fluids are being used, 5% to 8% of Wynn's Hydraulic Systems Concentrate should be added for full protection.

APPLICATIONS

Wynn's Hydraulic Systems Concentrate is particularly suited to earth moving equipment, Forestry/ logging equipment, paving equipment, hoists/jacks, and cranes. It is also suitable for rubbish disposal/ compactors, presses/tube bending, winch drives/line tensioners and steering systems/bow thrusters.
