The data concerning properties and applications of the indicated products are offered in good faith and are based on our research and practical experiences. Due to the versatility of the application possibilities, it is impossible to mention all details and we do not assume any obligations or responsibilities resulting from this. When a new edition appears due to the technical development, the preceding data are no longer valid.

ADVANTAGES

Wynn's Diesel Inject-A-Clean and Biocide will clean your complete fuel system from the diesel tank through to the exhaust. It mixes with diesel and moves through the fuel system quickly to safely remove deposits and hold them in suspension. The biocide helps control unwanted microorganisms and stop the exponential growth of the diesel bug.

Wynn's Diesel Inject-A-Clean and Biocide can be incorporated to enhance the wear protection of fuel system components, particularly injector pumps. It also contains a Cetane Improver which works like an Octane Boost in petrol fuel.

BENEFITS

Wynn's Diesel Inject-A-Clean and Biocide has been formulated to provide the following benefits:

- 01 Cleans and protects high pressure/common rail systems against excessive fouling, wear and water contamination damage
- 02 Cleans injectors
- 03 Restores and maintains ideal injector spray pattern
- 04 Does not emulsify water and diesel fuel
- 05 Improves acceleration and fuel consumption
- 06 Compensates for lack of lubricity in low sulphur fuels
- 07 Reduce exhaust emissions
- 08 Restores stable idle and acceleration
- 09 Safe to use with oxygen sensors, catalytic converters and particulate filters

DIRECTIONS OF USE

Add to the diesel tank. One bottle of Wynn's Diesel Inject-A-Clean and Biocide treats 80 Litres of diesel. Repeat the treatment every 10,000 km.

APPLICATIONS

Wynn's Diesel Inject-A-Clean and Biocide is suitable for use in all grades of automotive diesel fuels.
